The University

The documents establishing Illinois State University as a pioneer educational undertaking were drafted by Abraham Lincoln. Academic programs and courses are offered in thirty-six academic departments and schools are organized into six colleges. Over 20,000 students have a full range of study options in business, liberal arts, science, fine arts, education, applied science, technology, nursing, and pre-professional fields. Major classroom buildings are centrally located and are surrounded by the library and recreational and residence structures. The Central Illinois community of Normal-Bloomington, home of Illinois State University, has a population of over 132,000.

General University Information

At this time, the University is planning to return to a traditional campus experience for the 2021-22 academic year. It is expected that the majority of courses will be offered in-person, students will be living in on-campus housing, and engaging in in-person activities, events, and out-of-classroom experiences.

[View billing information concerning Illinois State University tuition and fees for the 2021-22 academic year](https://studentaccounts.illinoisstate.edu/billing/) (<https://studentaccounts.illinoisstate.edu/billing/>). Tuition and mandatory fees have been set regardless of the mode of instruction and cover a variety of short- and long-term expenses which continue regardless of the instructional mode or access to campus facilities. The mode of instruction may be adjusted. Tuition and fees will not be refunded in the event instruction occurs remotely or the mode of instruction changes for any part of the 2021-22 academic year. Illinois State University will continue to follow published withdrawal and refund policies concerning tuition and fees.

Using the Catalog

The statements in this catalog are for informational purposes only and should not be construed as the basis of a contract between a student and Illinois State University. The course offerings and requirements of the University are continually under review and revision. This catalog presents those in effect at the time of publication.

Information regarding changes will be available in the Offices of the University Registrar, the Provost, the colleges, major departments, and schools. It is especially important that each student note that it is their responsibility to be aware of current graduation requirements for a particular degree program.

Graduate Catalog Requirements

For a student who attends at least one term of each academic year, graduation requirements are specified in the Graduate Catalog for the year of first course enrollment in the degree program.

Since university programs are constantly evaluated and improved, a student may graduate under new degree requirements published the academic year their graduating from the University. A student who changes to new Graduate Catalog requirements, however, must meet all the requirements including graduation requirements, in that catalog.

Course Prerequisites

Course prerequisites may change over time and do not depend on catalog year. The registration system will enforce prerequisites in effect at time of registration.

All informal curricular recommendations made by departments and schools (such as emphases, tracks, areas of study, specializations, etc.) should be considered concentrations. Concentrations are advisory only; no approval process is required.

Graduate Certificate Program: Certificates are a series of courses designed to provide professional development and career advancement opportunities, or to enhance an individual's skills or education. These certificates are not part of degree programs, although courses completed as part of a certificate could be used in meeting degree requirements, where appropriate. - **Post-Baccalaureate Certificate**—requires a minimum of 9 hours beyond the baccalaureate degree, but fewer hours than a master's degree.
- **Post-Masters Certificate**—requires a minimum of 9 semester hours of coursework beyond the master's degree but fewer hours than a doctoral degree.

Terms Used in Course Descriptions

The following section explains how to read and use a course description, and the terminology used within course descriptions.

Also offered as: (cross-listed course) the specified courses are identical and are thus considered interchangeable in meeting all requirements. Credit can only be earned in one of the specified courses.

Consent of the instructor: The course instructor must give consent before a student may register for the course.

Formerly offered as: indicates a course previously offered under a different number or title. The course is interchangeable with the previous course number or title.

Materials charge optional: indicates an optional fee charge for course materials.

Multiple enrollments allowed: indicates that a course may be taken for credit more than once if different content is planned; there may be a maximum amount of credit specified for the course.

Not for credit if had: (course) means that content overlap exists between the specified courses and that students should not be able to count both toward graduation. Such courses are not, however, considered interchangeable in meeting all requirements.

Not for credit toward a graduate degree program: credit from this course may not be applied to the degree program requirements.

Variable credit courses: are those courses leading to differing number of credit hours. A student should plan with the advisor the number of hours to be sought in a variable credit course.

Course Offerings

Concentration: A subdivision of a major without specific requirements that is provided for advisement only. Concentrations are not designated on university transcripts. All in-formal curricular recommendations made by departments and schools (such as emphases, tracks, areas of study, specializations, etc.) should be considered concentrations. Concentrations are advisory only; no approval process is required. Combination Courses: Course format that combines lecture and laboratory components in each class meeting.

Contract: Contract educational services, programs and courses are delivered through mutual contract to a business site for a specific cohort or business entity.

“Decimalized” Course: A course with different subtopics but standard learning outcomes; for example, ENG 409 may examine different topics. Campus Solutions replaces the decimal with the letter A, so ENG 409.01 appears as 409A01.

Directed Research: Course format used for independent study, thesis, and dissertation courses.

Distance Education: A formal education process in which the majority of the instruction occurs when student and instructor are not in the same location at the same time. Instruction may be synchronous or asynchronous.

General Courses: Courses with a common course description and identified with a university-wide common number may be offered in each academic department or school. Examples are 400 Independent Study, 393 Workshop, 499 Master’s Thesis, and 599 Doctoral Dissertation. See Course Limitation section in this catalog for additional information.

Independent Study: Intensive study in a special area of the student’s interest under the direction of a qualified member of the faculty. Each individual investigation is to culminate in a comprehensive written report and/or examination and/or artistic project.

Online courses: Makes use of Illinois State’s connection to the Internet and other electronic resources. These courses may utilize on-line materials, coursework, and discussion groups, and may be delivered in any asynchronous mode.

Professional Practice: Professional Practice consists of one or more credit-generating, academic/career related, salaried or non-salaried work experiences. Graduate Professional Practice courses are designated by the numbers 498, and 598.

Seminar: A regular meeting of students, under the guidance of a faculty member, in which each conducts research and exchanges information, problems, and results through informal lectures, reports, and discussion.

Temporary Course: Temporary courses are approved by the curricular committees for a time period not to exceed one year. Temporary courses often are used to experiment with a new curricular design, to take advantage of the skills of a faculty member who will be at the University for a limited period, or to respond to particular interests of students. Temporary courses are designated by the numbers 389, 489, and 589. Temporary courses may not be required within a major or sequence.

Topics Course: An organization of subject matter and related learning experiences composed of identifiable subdivisions of topics. Each topic is of sufficient significance to be treated separately as a unit of instruction for an entire semester or term. The content of the course varies by semester.

Workshop: Intensive and applied work on special problems in one or more subject areas. Workshop opportunities are provided on special problems not covered in any regular university courses. Workshops are generally designated by the numbers 393, 429, and 493.

Course Information

The University operates on the semester plan. The credit value of all courses is stated in terms of semester hours. Ordinarily, a semester hour is assigned for a 50-minute class meeting per week for the semester; therefore, a course valued at three semester hours generally meets three periods weekly. In laboratory courses, at least two 50-minute periods per week are ordinarily required for each semester hour of credit.

In addition to its fall and spring semesters, the University provides a summer session with courses of varying lengths and a variety of short-term offerings.

Course Availability: Some courses listed at [CourseFinder.IllinoisState.edu](https://coursefinder.illinoisstate.edu) (<https://coursefinder.illinoisstate.edu/>) may not be available each year. Questions concerning scheduling of courses should be referred to the department chairperson or school director.

Course prerequisites are listed on Course Finder and may change over time. The registration system will enforce prerequisites in effect at time of registration.

Course Numbering System

Courses are numbered in the following order: course number (3 digits preceding the title), course title and credit value (in semester hours). Following the course description any prerequisites, restrictions on enrollment, and any special considerations are noted.

Each course bears a distinguishing number for identification and indication of its academic level. Courses 300-399 are advanced undergraduate courses and are open to juniors, seniors, and graduate students. 300-level courses approved for graduate credit are noted in Course Finder (<https://coursefinder.illinoisstate.edu/>). To receive graduate credit, students must complete applicable graduate requirements provided in the course syllabus. Courses 400-499 are graduate courses. Courses 500- 599 generally are limited to terminal degree students in programs such as the Ed.D., M.F.A., Au.D., D.N.P., and Ph.D.

The numbering system for advanced courses is as follows:

300-399: Advanced undergraduate courses. Open to juniors, seniors, and sometimes graduate students.

400-499: Courses at this level are for graduate students. With approval from the instructor, the department chair/school director, and the Graduate School, advanced undergraduates may be permitted to enroll in 400-level courses for undergraduate credit only.

500-599: Courses limited to advanced graduate or doctoral students.

Policies and Procedures

50 Percent Rule

Based on Higher Learning Commission Accreditation requirements, all master's degree programs require a minimum of 50 percent of the non-thesis credit hours applied to the degree to be 400-level courses or above.

Absence of Student Due to Religious Beliefs

Any student in an institution of higher learning, other than a religious or denominational institution of higher learning, who is unable, because of their religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, study, or work requirement and shall be provided with an opportunity to make up the examination, study, or work requirement that they may have missed because of such absence on a particular day; provided that the student notifies the faculty member or instructor well in advance of any anticipated absence or a pending conflict between a scheduled class and the religious observance and provided that the make-up examination, study, or work does not create an unreasonable burden upon the institution. No fees of any kind shall be charged by the institution for making available to the student such an opportunity. No adverse or prejudicial effects shall result to any student because of their availing themselves of the provisions of this Section. For more information please see the ISU Policy 1.6 Religious Accommodation Policy available at: <https://policy.illinoisstate.edu/conduct/1-1-6.shtm> (<https://policy.illinoisstate.edu/conduct/1-1-6.shtm>).

Academic Load

Approved 2/23/95; Updated 9/19/02; edited 2/6/03, 8/7/03

Students are considered full time if they register for 9 or more hours during the fall and spring semesters and 6 or more hours in the summer session. A student may register for no more than 15 hours in the fall and spring semester. In the 12-week summer session the maximum load is 12 semester hours. Fees for Student Health Insurance are automatically assessed for full-time students only. Student fees are assessed on a per hour basis. For graduate students in their final semester or on a 9-12 month internship, who have completed all coursework, and whose culminating experiences include thesis/dissertation or internships related to certification/accreditation, a full-time academic load would consist of at least one hour of thesis/dissertation or professional practice credit. Fees for Student Health Insurance will not automatically be assessed for these students. Students who desire the "1 credit hour equals full time" designation must be approved for that designation by their graduate coordinator, who will contact the Graduate School for registration.

If a student holds an assistantship the academic class load is 9 hours in the fall and spring semesters. A graduate assistant in their last semester of graduate studies who needs fewer than 9 hours to complete the degree must have a Graduate Assistant Course Load Waiver Request approved before the beginning of the last

semester by their graduate advisor and by the Graduate School. Graduate assistants taking more than 12 hours must have the approval of their graduate advisor.

Note: Graduate students registering for fewer than 9 hours in fall or spring, or fewer than 6 hours in summer, will not have the insurance fee automatically assessed. Those graduate assistants must apply for the insurance through their student account on [My.IllinoisState.edu](https://my.illinoisstate.edu/) (<https://my.illinoisstate.edu/>) before the fifteenth calendar day of each semester and the eighth calendar day of the summer session to pay premiums or within 15 days of the assistantship start date.

Applying for Degree/Certificate Completion

Approved 11/6/86, edited 9/5/03

Students must meet all requirements for their curriculum. A graduate student must apply for degree completion before the deadlines for each session as specified by the Graduate School. At the time application is made, the degree completion fee must be paid. Applications for students who fail to meet degree completion requirements for a specific session are cancelled, and the students must reapply for a later session. The application for degree completion is available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms/) (<https://grad.illinoisstate.edu/students/forms/>).

Students completing a certificate program must complete the application for completion of a non- degree graduate level certificate program available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms/) (<https://grad.illinoisstate.edu/students/forms/>).

Auditing Privileges

Approved: 11/6/86

A student may register as an auditor in a class or classes if facilities are available. A class taken under the audit option does not count toward a degree; it does not count toward full-time student status for financial aid and other purposes, nor does it count toward total hours enrolled in determining registration priority. Students auditing a class will be charged all applicable tuition and fees. An auditor is expected to attend regularly. A student may register as an auditor in a class or classes if space is available. To audit, a student must obtain a Request for Auditor registration form from the Registrar Service Center or download it at [Registrar.IllinoisState.edu](http://registrar.illinoisstate.edu/) (<http://registrar.illinoisstate.edu/>), request the instructor sign it and return the signed form to the Registrar Service Center.

Commencement

Approved: 12/16/92; updated 4/25/02

Degrees are conferred and diplomas awarded after the close of each semester and summer session. Commencement is held twice each year at the end of each fall and spring semester. Participation is voluntary.

Graduate students who complete degree requirements during the fall semester participate in commencement exercises in December; students who complete degree requirements during the spring semester (masters and doctoral) or at the close of the summer session (master's only) participate in commencement exercises in May.

Doctoral students who complete degree requirements in the summer session who wish to participate in a commencement exercise may only do so in the following December commencement.

All doctoral students must complete all requirements for the degree to participate in Commencement exercises.

Certificate students do not participate in University commencement ceremonies except by agreement of the College which sponsors the academic unit.

Course Registration

Help with registration may be obtained at [Registrar.IllinoisState.edu](http://registrar.illinoisstate.edu) (<http://registrar.illinoisstate.edu/>) or the Registrar Service Center, in 107 Moulton Hall, or by calling (309) 438- 2188. For office hours, visit the University Registrar website above. Registration may be accomplished during the advance registration period or the additional registration periods prior to the start of the semester.

Deferred Credit

Approved: 11/6/86

Deferred credit (DE) is always given in research and performance courses leading to a thesis, dissertation or exhibition. Credit will be given when the student satisfactorily completes all requirements for the program. Deferred credit (DE) is not used in computing the cumulative grade point average.

Deficiencies

Approved: 11/6/86

When an applicant has been accepted, the department/school will indicate any courses that may be required to remove undergraduate deficiencies. The department/school also may specify certain graduate courses which will be required in addition to those listed in the catalog and will designate which, if any, of these courses may be used in meeting requirements for the degree.

Degree Audit

A degree audit documents courses, credit hours, grades and other degree requirement specifics. The degree audit is to be completed no later than the beginning of the last semester in which the student is enrolled prior to graduation. The due dates are posted on the Graduate School website. A student cannot graduate without an approved degree audit on file.

Once an option has been approved on the formal degree audit, it can be changed only with approval of the student's academic advisor. However, when a degree audit is submitted to the Graduate School in the semester of anticipated completion, it can be changed only with written approval of the academic advisor and the

Graduate School. The degree audit form is available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms) (<https://grad.illinoisstate.edu/students/forms/>).

Full-time Equivalency

Approved 1/27/21

If a student has completed the maximum requirement of thesis/dissertation hours for the program, but more time is needed, a student may register for a 1 credit of thesis or dissertation for up to two (2) semesters. This 1 credit course will be counted at a level equivalent to full-time study for the purposes of loan deferment, continued use of university student services, and graduate assistant full-time enrollment eligibility requirements. An approved [PERS 938 \(Reduced Course Load Request\)](https://hr.illinoisstate.edu/downloads/PERS938.pdf) (<https://hr.illinoisstate.edu/downloads/PERS938.pdf>) is still required for graduate assistants enrolled in this option.

If more time is needed beyond the first two (2) semesters, a formal request for an extension can be made to the graduate school by the thesis/dissertation advisor. Extensions may be approved for a maximum of two (2) additional semesters only if a clear plan for completion has been submitted and only if the student is working at a full-time equivalency on thesis or dissertation work. Graduate students who are using this extension cannot hold a graduate assistantship. If the extension is approved, the full-time equivalency could be used for loan deferment or continued use of student services ONLY.

An extension request must address the following:

- An explanation of why the extension is necessary;
- If the extension is being requested for one or two semesters;
- Explanation of how the student is working at a full-time equivalency on thesis or dissertation work;
- A timeline for completion in the requested time-frame; and
- Approval of the thesis/dissertation advisor, the graduate coordinator, and the Graduate School.

Use of the 1 credit thesis/dissertation option (or extended period) may also affect the cost of attendance if a student is applying for federal and state financial aid. Students should consult the Financial Aid department to determine how use of the option will impact the student's eligibility for federal and state financial aid.

A student may not graduate with a disciplinary hold on their record.

Good Standing

Approved: 12/5/96, revised: 12/10/99, revised: 10/16/2012; edited: 2/17/15, revised: 1/27/21

A student must remain in good standing during the entire enrollment in graduate studies at the University. Good standing includes maintaining a minimum 3.0 graduate cumulative and program GPA to graduate, satisfying any program- specific requirements for good standing, and making satisfactory progress to degree. Students who fail to meet this requirement will either be dismissed from graduate studies or placed on academic probation by the Graduate School.

Note: Campus Solutions calculates cumulative GPA for students pursuing multiple simultaneous programs. It is important individual program GPA's are calculated manually at the department level to determine each program GPA is a 3.0 or above. Otherwise, the GPA of one program may not be at a 3.0 which is required to graduate.

Grading System

Approved: 2/15/90; Revised 9/19/02

Instructors assign a letter grade in each course for which the student is registered and are responsible for correcting any error in grading. The grade point equivalents are 4 for A, 3 for B, 2 for C, 1 for D, and 0 for F. Courses completed at this University with grades below C will not count toward a graduate degree or certificate, but all grades of D and F in graduate courses at this University will be included in computing the cumulative grade point average. (See Repetition of Course Requirements section below.) Graduate courses are not available on Passing/Not Passing (P/NP). Credit/No Credit (CR/NC) is provided only where approval through the curricular process has been obtained.

*Spring 2020: Graduate students were eligible for P/NP due to a global pandemic.

Incomplete Grade

An incomplete (I) will be assigned to a student who is doing passing work but finds it impossible, because of reasons beyond their control (such as illness), to complete the required work by the end of the term. The student must have attended class to within three weeks of the close of the semester or to within one week of the close of the summer session. Exceptions to this policy may be granted by the University Registrar. Student will not be allowed to graduate with an incomplete on their record.

After three semesters, an incomplete is automatically changed to an F. A grade change is needed to update the grade after this point in time.

ISU Embargo Policy

Approved: 11/12/19

As a public institution, ISU is committed to public access to all graduate theses/dissertations which reflect the knowledge created through students' scholarly research and creative activities. The Graduate School requires submission of theses/dissertations to ProQuest/UMI ETD and strongly encourages submission to ISUReD. However, ISU is also committed to students' rights as authors, allowing students to delay access to their theses/dissertations as needed. When an exception to the immediate release of a thesis or dissertation is necessary, an embargo provides a temporary, delayed public release of the work. Embargoes of 6 months, 1 year, or 2 years are available without Graduate School review. When an embargo is granted, the title, abstract, author and program information will be accessible during the restriction period. The embargo periods for ProQuest and ISUReD should be identical lengths of time.

While embargoes are not intended to be permanent, renewals of the original embargo may be considered by the Graduate School. Embargoes longer than 2 years are atypical and require review by the Director of the Graduate School and the Milner Library Copyright Officer. Renewals of embargoes should be submitted to the Graduate School within 1 month of the expiration of the current embargo. Embargoes extended beyond 2 years are rarely granted and only done so in extremely compelling situations.

The request to embargo must be approved by the student's committee chair and submitted to the Graduate School no later than the Right to Defend (<https://grad.illinoisstate.edu/students/thesis-dissertation/deadlines/>) deadline. An embargo is requested by sending an email to the ISU Copyright Officer (<mailto:sdick@ilstu.edu>).

An embargo past 2 years may be considered for the following reasons:

- Patentable rights are contained in the work and disclosure may be detrimental to the rights or interests of the author. The ISU Intellectual Property & Export Control Officer should be contacted by the committee chair as part of the embargo request.
- To protect the copyright potential of creative works such as first serial or book rights, a documentary, music score, artwork, etc.
- There is a need to prevent disclosure of government information about persons, institutions, technologies, etc. that is contained in the work.
- An academic or commercial press has expressed interest in acquiring the rights to publish the work as a book.
- The work contains content that has already been submitted to a peer-reviewed journal that may require an embargo. Check publishers' policies before submitting the thesis/dissertation.
- The work is based on data generated through research that will support other publications from people within the same research team (i.e. advisor). As a result, it may be necessary to refrain from releasing that data while other publications are prepared. An additional 2 years may be requested in this situation.
- Making the research publicly available might endanger research subjects or the author.
- Research and/or data is subject to review by sponsor or grantor prior to publication
- Research falling within policy 4.1.13 (<https://policy.illinoisstate.edu/academic/4-1-13.shtml>). Classified Research.

7. Fifty percent of all non-thesis hours must be at the 400 level and above
8. All 300 level courses used towards a graduate level certificate or degree must be approved for graduate level credit. Graduate Standing is a prerequisite on Course Finder.
9. Departments may offer 393, 397, 429XX, 493 and 498 on a CR/NC basis with approval in advance by the department or school and the Graduate School. CR/NC courses cannot be computed in the GPA. To count towards a degree program, CR/NC courses must be approved through the curricular process.

Missing Grade

A missing grade (M) is assigned when no grade has been received after the grade submission deadline has passed. For graduating students, a missing grade must be removed at least six weeks before December or May commencement or two weeks before August graduation. Instructors must file a grade change form as students will not be allowed to graduate with a missing grade on their record.

New Start Policy

Students who leave an Illinois State graduate degree program and return to Illinois State may begin the same or new degree program with a new graduate GPA calculated from the point of their readmission to the Graduate School as long as (1) the student is admissible to the new graduate program at Illinois State and meets all the criteria established by the Graduate School; (2) the student has not enrolled at Illinois State University for a period of at least three years; and (3) the New Start provision is approved by the new department or school at the time of readmission.

Students may transfer up to 9 credit hours from another university or previous Illinois State coursework if they meet the requirements outlined on the Transfer of Credit form. Students may exercise the “New Start” option only once and must follow the re-entry catalog. Such students will have “New Start” indicated on their transcript.

Probation

A student may be placed on probation for no more than 3 consecutive enrollment terms, at the discretion of the department/school following each term. A student who fails to return to good standing after each term will be considered for dismissal or placed on other term of probation. A student must be in good academic standing to be admitted to candidacy for a degree, as well as to graduate. Graduate students may not hold a graduate assistantship after one term of probation if the student is not in good standing.

Procedure for Appeal of Dismissal from a Graduate Program

Approved 10/29/19

Students who are dismissed from a graduate program should follow the appeal procedure outlined in the dismissal letter (summarized below). If a student is dismissed from more than one program at the same time they must appeal each dismissal separately.

1. To appeal a dismissal from their graduate program, a student must submit a written letter to the College Dean or designee within 5 business days from the date of the dismissal letter. The written appeal letter should clearly outline the reason for the appeal, the facts and circumstances leading to the dismissal, and a written plan with benchmarks to continue successfully in the graduate program.
2. Upon receipt of the appeal, the College Dean or designee will notify the School Director/Department Chair that issued the dismissal, Graduate Program Coordinator, registrar’s office, and Director of the Graduate School. The student, graduate program coordinator, and/or any other individuals that may be of assistance in the review of the appeal can be interviewed or asked to provide further written information. The intention of this step in the process is to be thorough, but timely with a response.
3. The student will maintain course enrollment until a decision on the appeal is reached.
4. After considering all available information, the College Dean will provide a written response to the student on the decision of the appeal.
5. If the dismissal is upheld, the student will be dropped from enrolled courses and become inactive.

If the dismissal is overturned, the student will remain in the program and any required benchmarks for continued enrollment will be communicated in writing.

Repetition of Course(s)

Approved 10/10/02; Revised by Academic Senate 12/10/03; Edited 3/19/04; Edited 5/1/06

If a student completes a course or drops a course after the tenth day of classes receiving a grade of WX, he or she may repeat that course once. For students receiving a letter grade of B, C, D, or F the course repetition must occur at Illinois State University. When a course has been repeated at Illinois State University, the most recent grade (A, B, C, D, F, WX) that the student earns will replace the previous grade in the cumulative GPA calculation. A grade of WX will not replace the previous grade. The previous grade will not be removed from the student's transcript, and only the credit hours from the last attempt can be used toward meeting minimum hourly requirements toward degree completion. Requests for a third or subsequent enrollment for a course are initiated with the student's advisor. The advisor then reviews the request and forwards it to the Graduate School for review and a decision. Students repeating a course to improve their GPA should be aware that many professional and graduate schools recalculate GPAs to include all courses attempted. This regulation does not apply to general courses (See Colleges, Departments, Schools, and Course Offerings). Some courses may be taken for credit more than once. These courses are indicated in the catalog by "multiple enrollments allowed" or "multiple enrollments allowed up to a maximum of x hours," and these courses are exempt from the repeat policy stated above and grades cannot be replaced. For courses such as these, a separate grade is recorded for each enrollment and each grade (A, B, C, D, or F) is counted toward the student's GPA. Later grades do not replace earlier grades for courses of this type.

Transfer of Degree Programs

A transfer from one degree program to another requires approval by the receiving and departing department or school. Approval must be received from the department or school student wishes to transfer prior to withdrawal from current program. The transfer program will update the student's program code on Campus Solutions and notify the Registrar's Office of the program change.

Undergraduates Taking Graduate Coursework for Graduate Credit

Approved 2/15/90, edited 10/16/06, revised 2/10/21

Undergraduates can take graduate courses for graduate credit if they (1) have junior or senior status, (2) have a cumulative GPA of 2.8 or higher. Total registration cannot exceed 15 hours in that semester. Graduate coursework will not be calculated in the undergraduate GPA. The transcript will indicate the grade received, the number of credit hours the course was worth, but 0 hours earned. This is due to only earned hours are calculated in the GPA. This is common transcript language used by Registrar/Bursar offices. There is no guarantee graduate courses taken will be accepted by another University as transfer credit.

All coursework taken for graduate credit must be approved by the department or school advisor and the Graduate School BEFORE registration. A form titled, "Undergraduate taking Graduate Credit" is available electronically in My.IllinoisState to be completed for approval.

Up to 12 hours of coursework will count toward an ISU graduate degree program only and has a limit of 6 years to be used. Coursework taken for graduate credit cannot count toward a bachelor's degree except under the provisions of integrated bachelor's/master's degree and accelerated master's degree programs. This opportunity is also extended to last semester seniors of other universities who find it possible to take graduate work at this University while completing requirements for the bachelor's degree on their own campuses. Interested students should write to the Graduate School for further information. Such graduate courses cannot be used in meeting bachelor's degree requirements on their own campuses.

University Policy Manual

See, Policy.IllinoisState.edu (<http://Policy.IllinoisState.edu>).

Master of Arts Degree Requirements

Approved 12/3/98, edited 3/29/05, 3/22/16

The Master of Arts degree is awarded to a student who has completed an appropriate degree program and met the foreign language requirement for this degree at the college level. This requirement may be met by:

1. Completing a minimum of four semesters (or its equivalent, ISU's LAN 116) in one foreign language. The requirement may be met by earning a grade of C or better (or Credit or Pass) in the courses at either the graduate or undergraduate level.
2. Obtaining a satisfactory score on a university administered language examination approved by the Graduate School available in French, German, or Spanish at the University College Office. [View additional MAPE information \(https://registrar.illinoisstate.edu/testing-services/mape/\)](https://registrar.illinoisstate.edu/testing-services/mape/).
3. Students whose native language is not English may, with departmental or school approval, petition the Graduate School to substitute proficiency in the English language as fulfillment of the language requirement. Proficiency is met by achieving the university minimum total score on TOEFL or IELTS exams.
4. Students wishing to use American Sign Language as the language requirement may do so if they have completed 4 semesters of ASL for credit at an accredited college or university (no adult education courses). Proficiency may also be tested but requires the use of an outside consultant. A fee will be assessed if a proficiency test is needed.

5. Other methods as determined by the department or school with approval by the Graduate School.

Degree Options and Credit Requirements

Edited 2/17/15

The following are the degree options, however, not all programs offer both options:

- Master's Degree with Thesis: No more than 6 and no less than 4 semester hours for thesis research and writing may be counted toward satisfying the 30 semester hour minimum of graduate work for a master's degree with thesis. Fifty percent of all non-thesis hours must be at the 400 level and above.
- Master's Degree without Thesis: Consists of at least 30 semester hours of graduate work and includes a Comprehensive Examination and/or a culminating requirement demonstrating a mature application of skills and knowledge (e.g., professional practice, project, colloquia, and recital).
- Master's Degree with Courses: Consists of at least 30 hours of graduate work demonstrating skills or knowledge of content competency.

Fifty percent of the courses completed, must be at the 400 level or higher.

Time Limitations

Approved 11/6/86, Updated 3/22/01

All requirements for the degree must be completed within six calendar years, beginning with the date the student first registers as a degree student. This time limit applies to enrollment in all graduate course work in the student's program including work for which transfer credit is allowed, as well as courses taken as a visiting student if the student wants to use the courses toward a degree. A Request to Extend Time to Complete Degree Program must be completed by the student, graduate coordinator, and, if applicable, thesis chair, and submitted to the Graduate School for approval or denial. If a course taken to complete the requirements for the degree is not within the six-year period allowed for the degree program, the student's department or school may require the student to retake the course for credit or allow the student to demonstrate current knowledge and/or proficiency of the subject matter. If the latter is used, currency must be demonstrated to the satisfaction of the department or school offering the course through successful completion of an appropriate examination or other assessment if available from the department or school. Otherwise, outdated coursework must be deleted from, and other course work must be substituted in, the degree audit.

Credits more than six years old at the time of first registration into a degree program are not transferable from other institutions. Individual departments and schools may have more stringent timelines. When graduate study is interrupted by military service or other contingencies, the six year limit may be extended with the approval of both the department or school and the Graduate School.

Transfer Credit

Approved 10/19/95; updated 2/24/00, 3/22/01; edited 6/27/04; updated 4/28/21

Upon recommendation of the department or school where the student is enrolled and with the approval of the Graduate School, a student may present a maximum of twelve semester hours of graduate credit from another college or university that is accredited by the appropriate regional accrediting association for use in meeting the requirements of the degree. Credits more than six years old at the time of first registration into a degree program are not transferable from other institutions. Transfer credit may not be used in meeting the minimum number of 400-level credit hours required for the degree. The work must not form part of a degree program elsewhere. Under special circumstances, the Graduate School may allow a student to present a larger number of credits if recommended by the department or school. A student who plans to take work elsewhere should obtain prior approval indicating that the course or courses are appropriate to the student's curriculum at Illinois State University. Correspondence courses and independent studies are not accepted toward a degree.

To be considered for transfer of credit, a course must be taught at the graduate level and the student must have received at least a B grade in the course. In addition, a departmental or school evaluation of all courses presented is necessary prior to consideration by the Graduate School. The Request for Transfer of Credit form is at: [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms) (<https://grad.illinoisstate.edu/students/forms/>).

Residency Requirements

Approved 11/19/87

Except in the Wonsook Kim School of Art and Department of Communication Sciences and Disorders, a candidate for a master's degree is not required to complete a residency requirement. For specific requirements of the department or school refer to the department or school program description.

Admission to Candidacy

Approved 11/19/87; edited 2/17/15

To be admitted to candidacy for the master's degree the student must have: a) a Degree Audit on file in the Graduate Office, b) completed all deficiencies, c) a minimum G.P.A. of 3.0 in graduate course work at Illinois State, and d) a copy of the thesis proposal approval form on file in the Graduate School if choosing a thesis option.

Master's Comprehensive Examination

Approved 4/14/88; edited 2/17/15; edited 9/19/17; edited 4/24/18

For the comprehensive examination option, a comprehensive examination must be taken by each student before receiving the master's degree. The content, process, scheduling, administration, and evaluation of the examination (oral, written, performance, or otherwise) are to be determined by each department and school. To apply for comprehensive examinations a student must:

- be in good standing in a program,

- have a Degree Audit on file in the department or school,
- not be on academic probation, and
- have a cumulative GPA of at least 3.0 at the time of the examination.

The following procedures apply to the comprehensive exam:

- A student who fails the examination must wait until the next academic term before repeating the entire examination unless there are reasons that make an exception advisable. Exceptions must be requested from the Graduate School in writing by the student and advisor/chair/director.
- Students who have twice failed the examination are not to repeat the exam unless they have completed further study as prescribed by the department chair or school director.
- Comprehensive examinations may not be administered more than three times to individual students.
- Department chairs and school directors are to notify students, by letter, of examination results within thirty days from the examination date.
- A copy of this letter is to be sent to the Graduate School. (If it is a student's second failure, recommendations for further study and appropriate warning of the situation are to be included in the letter.)
- The Graduate School must receive the results from the department or school no fewer than 10 working days before the date of graduation.
- After the first and second failure of comprehensive examination, the student can petition the department/school to repeat the comprehensive examination.
- At the point of the third failure of comprehensive examination, the department/school will recommend to the Graduate School that the student be dismissed from the degree program.

Master's Thesis Option

Approved 12/11/86

The student electing the thesis option must register for a minimum of four and a maximum of six hours of 499, Master's Thesis. Any student using the services of the academic faculty, staff, or the facilities of the University must be registered for the semester or term during which the services are rendered or the facilities are used including the thesis defense. Also, to register for 499 the student must actually be working on the subject under the direction of the advisor or thesis chairperson. No grade will be given for the course but credit will be entered on the student's record after the final thesis is uploaded to ProQuest and finalized by the Graduate School. No credit for 499 may be given to a student who does not complete a thesis.

Master's Thesis Committee

Approved 12/11/86; Revised 4/22/04

A thesis is written under the direction of a thesis committee appointed in a manner specified by the department or school. All thesis committees require a minimum of two people, a chair from the student's department/school and at least one other committee member. In all cases, the chair and majority of committee members should come from the student's department/school and have full graduate faculty status. An associate member may co-chair a thesis with a full member. Proposed committee members who are not members of the Illinois State University Graduate Faculty must be approved by the Director of Graduate Studies. See the "Graduate

Committee Information” section on the “Proposal Approval Form” to indicate the faculty who need approval to serve on the committee. A student must be admitted to a degree program in the Graduate School before a thesis committee can be appointed.

Thesis Proposal

Approved 2/18/99, updated 2/18/99

The Thesis Proposal, including the title, scope, and design, must be approved by the student's thesis committee at the proposal hearing. The Thesis Proposal Approval Form should be completed after the successful proposal hearing and submitted and approved by the Graduate School before a student is admitted to candidacy to embark on thesis research. Institutional policy also requires that all research proposals involving human subjects be reviewed and approved by the Institutional Review Board (IRB). Research proposals involving animals must be reviewed by the Institutional Animal Care and Use Committee (IACUC). Research proposals involving biohazards must be reviewed by the Institutional Biosafety Committee (IBC).

In special situations, and only with the approval of the thesis committee, the department chair or school director or designee, and the Graduate School, students may collaborate on some aspects of the work contributing to their theses. However, each thesis submitted to the Graduate School for approval must be a unique product with the degree candidate as the sole author and with due acknowledgment of the contribution of collaborators. The individual student must demonstrate to her or his committee satisfactory command of all aspects of the work presented.

Thesis Acceptance

Approved 3/23/95, edited 2/5/08; 2/17/15

A complete draft of the thesis must be uploaded to ProQuest before the “Right to Defend” will be issued to the student. [View complete details on the completion of the thesis \(https://grad.illinoisstate.edu/students/thesis-dissertation/plan/\)](https://grad.illinoisstate.edu/students/thesis-dissertation/plan/).

Continuous Thesis Registration

Approved 11/14/96; edited 1/2017

After the Thesis Proposal approval form has been accepted in the Graduate School and a student has completed the courses on the approved degree audit and registered for four to six hours of 499 Master's Thesis, the student is required to maintain continuous registration until the deposit of the final thesis on ProQuest and approval of the final thesis in the Graduate School. The requirement for continuous registration may be fulfilled by maintaining registration of 1 hour of 499 each semester through the semester of degree completion. Students registering for less than 9 credit hours in fall or spring, or less than 6 credit hours in summer, will not have the insurance fee automatically assessed. [See the Health Insurance website \(http://healthservices.illinoisstate.edu/insurance/\)](http://healthservices.illinoisstate.edu/insurance/) for further information [\(http://healthservices.illinoisstate.edu/insurance/\)](http://healthservices.illinoisstate.edu/insurance/). The requirement for continuous registration does not apply during a summer term unless the student is graduating in that term. Registration for 499 may be in absentia. If

circumstances prohibit continuous registration, a student must request a leave of absence from the department or school and then from the Graduate School. Any student interrupting registration without obtaining a leave of absence, upon re-enrollment and/or reinstatement, must pay tuition and fees for one credit hour of 499, at the current tuition and fee rates, for each of the delinquent semesters. Any student requesting reinstatement in a degree program after a lapse of one calendar year must complete an application for readmission to the program.

Full-Time Equivalency

Approved 1/27/21

If a student has completed the maximum requirement of thesis hours for the program, but more time is needed, a student may register for a 1 credit of thesis for up to two (2) semesters. This 1 credit course will be counted at a level equivalent to full-time study for the purposes of loan deferment, continued use of university student services, and graduate assistant full-time enrollment eligibility requirements. An approved PERS 938 (Reduced Course Load Request) (<https://hr.illinoisstate.edu/downloads/PERS938.pdf>) is still required for graduate assistants enrolled in this option.

If more time is needed beyond the first two (2) semesters, a formal request for an extension can be made to the graduate school by the thesis advisor. Extensions may be approved for a maximum of two (2) additional semesters only if a clear plan for completion has been submitted and only if the student is working at a full-time equivalency on thesis work. Graduate students who are using this extension cannot hold a graduate assistantship. If the extension is approved, the full-time equivalency could be used for loan deferment or continued use of student services ONLY.

An extension request must address the following:

- An explanation of why the extension is necessary;
- If the extension is being requested for one or two semesters;
- Explanation of how the student is working at a full-time equivalency on thesis work;
- A timeline for completion in the requested time-frame; and
- Approval of the thesis advisor, the graduate coordinator, and the Graduate School.

Use of the 1 credit thesis option (or extended period) may also affect the cost of attendance if a student is applying for federal and state financial aid. Students should consult the Financial Aid department to determine how use of the option will impact the student's eligibility for federal and state financial aid.

Two Simultaneous Master's Degrees

Approved 11/6/86, revised 9/19/17

A maximum of 12 hours of course work is allowable to count simultaneously toward two (2) master's degrees provided certain other stipulations are met. These stipulations are as follows:

1. that the student must be enrolled in the second master's program at least one semester prior to the completion of the first degree,
2. that all requirements for both degree programs be met within the six year time limit,
3. that a particular thesis may not be used to meet the degree requirements for more than one degree, and
4. that not more than three hours of the 12 hours allowed to count toward the second degree be generated by independent study, practicum, or workshop credit.

Two Simultaneous Sequences

Approved 3/22/01

Two sequences offered within the same degree program may be recognized on a student's transcript if the student is enrolled in both sequences simultaneously as part of the requirements for completing the degree program. A common core of degree requirements and common sequence requirements may be shared across both sequences subject to the following limitations:

- Students must complete the requirements for both sequences before completing the degree requirements.
- The requirements for the two sequences and the degree program must be completed within a six year time limit from the time of admission to the degree program.
- No more than nine hours of independent study (400), workshop (493), or professional practice (498) can be shared for both sequences and the degree program.

Thesis hours may be shared by both sequences.

Students who have been awarded a graduate degree are not eligible to pursue a second sequence within the same degree program under these provisions.

Accelerated Master's Degree Programs

Approved 9/19/2017

Accelerated master's degree (AMD) programs offer high achieving students the opportunity to complete their bachelor's degree and master's degree in a faster time frame than each degree separately. Students will take both graduate and undergraduate classes when they have junior or senior status and seamlessly transition into their master's degree program.

Students admitted into an accelerated master's degree program may count a maximum of twelve (12) hours or 33% of course work towards both the bachelor's degree and master's degree. The coursework requires approval of the academic advisor. Courses must be at the 400 level or be a dual credit 300 level course in which the student completes graduate student requirements as outlined in the syllabus. Although a maximum of twelve (12) hours may be shared, some programs have lower limits. Students will complete all degree requirements in both degrees.

Admission Requirements

Bachelors/Masters programs are designed to enhance the opportunities for advanced training for ISU's most talented undergraduates. Admission to these programs must be highly competitive and will depend upon a positive review of credentials by the program's admission's committee. Accordingly, the admission requirements for these programs are higher than those required if the master's degree were pursued entirely after the receipt of the bachelor's degree. Minimum requirements include:

- Declared undergraduate major
- Junior based on credit hours earned
- A minimum cumulative GPA of 3.20 for all course work at ISU

Students not eligible for the accelerated program may apply to the master's degree program through the regular admissions process.

A student should apply for admission to the accelerated sequence in their sophomore/junior year by submitting the department required documents. Students apply to the graduate program in the semester they graduate from the bachelor's program. Some departments may have different deadlines for applications.

Students will receive conditional admission, pending the review of their grades at the conclusion of the semester of application. Once admitted to the Accelerated Master's Degree program, students are required to meet the academic standing requirements of the Graduate School. As long as a student remains in good standing, they will automatically be admitted as a graduate student in that program.

Financial Eligibility

Students will be billed based on the degree program in which they currently exist. Students are considered to be an undergraduate student until they complete their bachelor's degree. Once completed the student becomes a graduate student and is eligible for graduate student funding.

Withdrawal from Accelerated Programs

Students must complete at least one graduate course as an undergraduate to be considered in the accelerated master's degree program. If the student does not complete this course, or chooses to withdraw from the accelerated program, they will be placed back in their original degree program.

Application for Degree Completion

The undergraduate and graduate degrees will be conferred separately (unlike integrated programs).

Undergraduate students will apply for and follow undergraduate commencement procedures to complete their undergraduate degree. The last semester of the graduate degree program, the student will adhere to deadlines and processes for graduate degree commencement. All details of undergraduate commencement are handled in the same manner and by the same timelines as all other undergraduate students. Once in the graduate career, students abide by the graduation deadlines set forth by the Graduate School.

Integrated Bachelor's/Master's Degree Programs

Approved 4/22/04

An integrated degree program allows students to complete an undergraduate degree, in the same disciplinary area, within a timeframe that may be less than the traditional bachelor's and master's programs. Students take undergraduate- and graduate-level courses simultaneously beginning as early as the second semester of their junior year. Integrated degrees are normally a five- to six-year program for currently enrolled Illinois State University students.

Admission Requirements

An applicant to an integrated program must be an Illinois State University undergraduate or a transfer student with 60 hours or less. Students who have received a bachelor's degree are not eligible for admission into an integrated program except under the provisions of obtaining a second bachelor's degree.

Admission to the integrated program generally occurs by the end of the sophomore year but with no more than 66 hours of required undergraduate coursework earned. After completing 75 undergraduate hours, the student must take any graduate standardized tests required by the program and apply for the graduate program (paying the graduate application fee). After 88 hours there is a preliminary audit of the undergraduate degree. At this time the student must have a 3.0 GPA and is eligible to enroll in graduate courses (400 level). The student remains classified as an undergraduate until 120 hours are completed, after which time they will be classified as a graduate student. Continuance in the integrated program is contingent upon meeting the minimum 3.0 GPA and other requirements needed for receiving both degrees. A department or school may establish a higher GPA for admissions and continuance.

Financial Eligibility

After completing 120 undergraduate hours, the student is (a) assessed tuition and fees at the graduate level, (b) eligible for financial aid at the graduate level, and (c) eligible for graduate assistantships, scholarships, fellowships, or other types of support or recognition normally available to graduate students.

Exit Options

For the integrated program, the master's with thesis (4-6 hours of 499) or master's without thesis options are utilized. The master's without thesis option includes a comprehensive examination or culminating requirement demonstrating a mature application of skills and knowledge (e.g., professional practice, project, colloquia, or recital).

Withdrawal from Integrated Programs

Students contemplating withdrawal from the integrated program should contact their advisor. Students may elect to receive the bachelor's degree if they have completed the appropriate requirements. Students who elect to receive the bachelor's degree are terminated from the integrated program and are not eligible to be readmitted to or to receive an integrated degree. Students with bachelor's degree may seek admission to the regular master's program.

Time Limit

Students have seven years from the time of first enrollment in courses as an integrated degree student to complete the program (both degrees). Requests for extensions will be processed through the Graduate School. Use the “Request to Extend Time to Complete Masters/Doctoral Degree Program” form to request an extension of time available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms) (<https://grad.illinoisstate.edu/students/forms/>).

Application for Degree Completion

After earning 88 hours toward the bachelor’s degree, and early in the semester in which completion of the master’s degree program is anticipated, the student applies separately for each degree, paying the appropriate fee for each. At that time, a master’s Degree Audit is submitted to the Graduate School. For the commencement ceremony, the student is listed in both the bachelor’s and master’s sections of the commencement booklet and, if appropriate, listed for undergraduate honors. The application to participate in commencement is part of the degree completion application and is filed with the Graduate School Office. The commencement participation form will be forwarded to the staff in the Graduation Services unit.

To locate the degree completion application visit [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms) (<https://grad.illinoisstate.edu/students/forms/>).

All policies and regulations that apply to undergraduate or graduate degree programs also apply to the integrated degree programs except as specifically differentiated in this section. The only integrated undergraduate/graduate degree program offered at this time is the Integrated Bachelor of Science (B.S.)/Master of Professional Accountancy (M.P.A.).

Master of Fine Arts

Degrees Offered

Offered in the Wonsook Kim School of Art and the School of Theatre and Dance, the Master of Fine Arts (M.F.A.) is a terminal degree that emphasizes theory and practice in a particular discipline of the arts.

Curriculum Requirements

Approved 11/19/87

A professionally oriented program, the M.F.A. requires a minimum of 60 semester hours for a student with only a bachelor's degree or a minimum of 32 hours for a student with an earned master's degree. The total hours required for a student with an earned master's degree will be based on an evaluation of the student's portfolio and academic record. However, the final determination will not be made until the student has completed a minimum of six semester hours in the student's major area of emphasis. A candidate for the degree must demonstrate proficiency both as a practitioner and a teacher in one of several areas of emphasis listed in the Graduate Catalog.

Time Limitations

Approved 11/19/87, Updated 3/22/01

All requirements for the Master of Fine Arts degree must be completed within eight calendar years, beginning with the date the student first registers as a degree student. This time limit applies to enrollment in all graduate coursework in the student's program, including work for which transfer credit is allowed. If a course taken to complete the requirements for the M.F.A. degree is not taken within the eight year period allowed for the degree program, the student's school may require the student to retake the course for credit or allow the student to demonstrate current knowledge of the subject matter. If the latter is used, currency must be demonstrated to the satisfaction of the school offering the course through successful completion of an appropriate examination or other assessment if available from the school. Otherwise, outdated coursework must be deleted from, and other coursework must be substituted in, the degree audit. Credits more than eight years old at the time of first registration into a degree program are not transferable from other institutions. When graduate study is interrupted by military service or other contingencies, the eight-year limit may be extended by the Graduate School. Use the Request to Extend Time to Complete Masters/Doctoral Degree Program form at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms) (<https://grad.illinoisstate.edu/students/forms/>).

Transfer Credit

Approved 11/19/87, Updated 3/22/01

Credits more than eight years old at the time of first registration into a Master of Fine Arts degree program are not transferable from other institutions. The work must not form part of a completed degree program elsewhere. Under special circumstances, the Graduate School may allow a student to present a larger number of credits if recommended by the school. A student who plans to take work elsewhere should obtain prior approval indicating that the course or courses are appropriate to the student's curriculum at Illinois State University.

To be considered for transfer of credit, a course must meet the criteria outlined on the Transfer of Credit form and obtain approval from the Graduate School. The Transfer of Credit form is available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms/) (<https://grad.illinoisstate.edu/students/forms/>).

In the Wonsook Kim School of Art, a student can transfer no more than nine semester hours of credit from any graduate program (including a master's program in Art at Illinois State University) for use in meeting the requirements of the M.F.A. degree. In the School of Theatre and Dance, a student who does not have an earned master's degree may present a maximum of six semester hours of credit from another college or university for use in meeting the requirements of the M.F.A. degree. However, the student may present all earned hours from a master's program in Theatre at Illinois State for use in meeting these requirements. A Theatre student who has an earned master's degree must earn a minimum of 32 hours in the M.F.A. program at Illinois State University.

Residency Requirement

Approved 11/19/87

A student without an earned master's degree must complete a residency requirement of at least four semesters with at least two of them being full-time, consecutive semesters. A student with an earned master's degree must complete a residency requirement of at least two full-time, consecutive semesters. Summer session may be counted toward the two consecutive semester requirement only in the School of Theatre and Dance.

Admission to Candidacy

Approved 11/19/87

In order to be admitted to candidacy, the student without an earned master's degree must have completed 24 hours of graduate study at Illinois State University or two semesters of full-time resident study.

The student with an earned master's degree must have completed 12 hours of graduate study at Illinois State University or one semester of full-time resident study. All students must have a grade average of B or better with no more than 5 (6 in Theatre) hours below a grade of B.

Before becoming a candidate for the M.F.A. in Art the student must pass a candidacy review that includes approval of the following items: portfolio of studio work, final Degree Audit, and proposal for the Supportive Statement (an exhibition-related written project).

Before becoming a candidate for the M.F.A. in Theatre the student must have a Degree Audit on file with the Graduate School and pass a qualifying examination which is administered by the student's M.F.A. portfolio committee. Admission to candidacy, which usually occurs in the final semester, must be satisfied before the student is allowed to schedule an exit portfolio presentation. The Degree Audit form is available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms/) (<https://grad.illinoisstate.edu/students/forms/>).

Academic Advisors

Approved 11/19/87

In the Wonsook Kim School of Art, the student in the pre-candidacy phase of the program selects a major advisor with the help of the Graduate Coordinator/Director. With the help of the major advisor the student selects a candidacy review committee of three members. The chairperson of this committee must be from the student's major area of emphasis. Normally, the candidacy review committee continues as the student's graduate committee during the candidacy phase of the program.

In the School of Theatre and Dance the director, in consultation with faculty whom the director deems appropriate, will select the candidate's Portfolio Committee. The committee chairperson must come from the student's major area of emphasis.

Doctor of Philosophy

The Doctor of Philosophy degree is designed for the preparation of individuals competent in research and scholarly inquiry whose career objectives are generally in research, teaching, consultation, or leadership roles in universities, colleges, institutes, educational agencies or private practice.

Minor Fields

Approved 4/14/88

A doctoral student may select a minor field (or fields) of study. The selection and composition of a minor field (or fields) must have the approval of the Graduate School and the major and minor departments. A minor field may, under certain circumstances, be in the same department or school as a major field.

Curriculum Requirements

A doctoral degree is not granted on the basis of a student having successfully completed a certain number of courses, but upon evidence of scholarly attainment as demonstrated especially by competence in research.

Students may transfer up to 40% of the required program coursework, not including comprehensive exams and dissertation hours, toward the completion of the doctoral degree with approval from the department/school. The transferred coursework must be graduate level, with a grade of B or higher (or equivalent as verified on the transcript), and may or may not have been used toward another graduate level degree. The coursework being considered for transfer will be reviewed on an individual basis with final approval from the department/school.

Time Limitations

Approved 4/14/88, Updated 3/22/01

All requirements for a doctoral degree, including the dissertation, must be completed by the end of eight calendar years beginning with the date the student first registers as a doctoral degree student. This time limit applies to enrollment in all graduate coursework in the student's program. If a course taken to complete the requirements for the doctoral degree is not taken within the eight-year period allowed for the degree program, the student's department may require the student to retake the course for credit or allow the student to demonstrate current knowledge of the subject matter. If the latter is used, currency must be demonstrated to the satisfaction of the department offering the course through successful completion of an appropriate examination or other assessment if available from the department. Courses from other institutions falling outside the limitation of time may not be used in a graduate program. When graduate study is interrupted by military service or other contingencies, the eight-year limit may be extended by the Graduate School. A Request to Extend Time to Complete Graduate Degree Program must be completed by the student, graduate coordinator/director, and if applicable, dissertation chair, and submitted to the Graduate School for approval or denial. The Request to Extend Time to Complete Graduate Degree form is available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms) (<https://grad.illinoisstate.edu/students/forms/>).

Admission to Candidacy

Approved 4/14/88

A doctoral student will be admitted to candidacy after: a Degree Audit has been submitted to the Graduate School and approved, (b) the comprehensive/preliminary examination has been successfully completed and reported to the Graduate School, (c) the research tool requirement has been met, and (d) the dissertation proposal has been approved by the dissertation committee and by the Graduate School. (Both the Degree Audit and Proposal Approval forms are available at [Grad.IllinoisState.edu/students/forms](https://grad.illinoisstate.edu/students/forms) (<https://grad.illinoisstate.edu/students/forms/>)).

Comprehensive/Preliminary Examination

Approved 4/14/88; edited 2/17/15; edited 9/19/17; edited 4/24/18

The comprehensive/preliminary examination is written, or, written and oral. It is also concerned with the student's professional competence and ability to undertake independent research. The content, process, scheduling, administration, and evaluation of the examination is to be determined by each department and school. To apply for comprehensive examinations a student must:

1. be in good standing in a program, and
2. have a Degree Audit on file in the department or school,
3. not be on academic probation,
4. and have a cumulative GPA of at least 3.0 at the time of the examination.

A student who fails the examination must wait until the next academic term before repeating the entire examination unless there are reasons that make an exception advisable. Exceptions must be requested from the Graduate School in writing by the student and advisor/director. Students who have twice failed the examination are not to repeat the exam unless they have completed further study as prescribed by the department chair or school director. Comprehensive examinations may not be administered more than three times to individual students. Department chairs and school directors are to notify students, by letter, of examination results within thirty days from the examination date. A copy of this letter is to be sent to the Graduate School. (If it is a student's second failure, recommendations for further study and appropriate warning of the situation are to be included in the letter.) At the point of the third failure of comprehensive examination, the department or school will recommend to the Graduate School that the student be dismissed from the degree program.

The Graduate School must receive the results from the department or school within 5 working days of notifying the student.

Registration for Dissertation Work

Approved 12/11/86

Fifteen semester hours of 599 Doctoral Research are required for the doctoral degree. Any student using the services of the academic staff or the facilities of the University must be registered for the semester or term during which the services are rendered or facilities are used. Also, to register for 599 the student must actually

be working on the research under the direction of the advisor or dissertation chairperson.

Continuous Registration

Approved 11/14/96

Once admitted to candidacy in a doctoral degree program, as defined by the Admission to Candidacy policy, and after the student has completed all coursework on the Degree Audit and the required number of hours (15) of 599 Doctoral Research, the student is required to maintain continuous registration until the deposit of the final dissertation in ProQuest and approval of the dissertation in the Graduate School. The requirement for continuous registration may be fulfilled by maintaining registration in 1 hour of 599 each semester through the semester of degree completion. (Students registering for less than 9 credit hours in fall or spring, or less than 6 credit hours in summer, will not have the insurance fee automatically assessed. (See the [Health Insurance \(https://healthservices.illinoisstate.edu/insurance/\)](https://healthservices.illinoisstate.edu/insurance/) website for further information.) The requirement for continuous registration does not apply during a summer term unless the student is graduating in that term. Registration for 599 may be in absentia. If circumstances prohibit continuous registration a student must request a leave of absence from the department and then from the Graduate School. Any student interrupting registration without obtaining a leave of absence, upon re-enrollment and/or reinstatement, must pay tuition and fees for one credit hour of 599, at the current tuition and fee rates, for each of the delinquent semesters. Any student requesting reinstatement in a degree program after a lapse of one calendar year must complete an application for readmission.

Full-Time Equivalency

Approved 1/27/21

If a student has completed the maximum requirement of dissertation hours for the program, but more time is needed, a student may register for a 1 credit of dissertation for up to two (2) semesters. This 1 credit course will be counted at a level equivalent to full-time study for the purposes of loan deferment, continued use of university student services, and graduate assistant full-time enrollment eligibility requirements. An approved [PERS 938 \(Reduced Course Load Request\)](https://hr.illinoisstate.edu/downloads/PERS938.pdf) (<https://hr.illinoisstate.edu/downloads/PERS938.pdf>) is still required for graduate assistants enrolled in this option.

If more time is needed beyond the first two (2) semesters, a formal request for an extension can be made to the graduate school by the dissertation advisor. Extensions may be approved for a maximum of two (2) additional semesters only if a clear plan for completion has been submitted and only if the student is working at a full-time equivalency on dissertation work. Graduate students who are using this extension cannot hold a graduate assistantship. If the extension is approved, the full-time equivalency could be used for loan deferment or continued use of student services ONLY.

An extension request must address the following:

- An explanation of why the extension is necessary;
- If the extension is being requested for one or two semesters;

- Explanation of how the student is working at a full-time equivalency on dissertation work;
- A timeline for completion in the requested time-frame; and
- Approval of the dissertation advisor, the graduate coordinator, and the Graduate School.

Use of the 1 credit dissertation option (or extended period) may also affect the cost of attendance if a student is applying for federal and state financial aid. Students should consult the Financial Aid department to determine how use of the option will impact the student's eligibility for federal and state financial aid.

Advanced Standing Credit for Students Enrolling in a Doctoral Professional Practice Program

Approved 10/29/19

A limit of 24 hours of advanced standing credit may be granted to a doctoral student with a previous master's degree in a related field of study. The graduate program coordinator will determine whether the 24 hours should be granted when the student applies for admission to the program. Technically, this is not transfer credit and does not apply to any of the limits listed below.

Doctoral candidates who have previously earned a master's degree or its equivalent approved by one of the regional accreditation associations or by the agencies recognized by the Council for Higher Education Accreditation may be granted 24 semester hours of advanced standing credit toward the doctoral degree if approved by the program and the Graduate School at the time of admission. The 24 hours are subtracted from the total hours required for the doctorate from the baccalaureate, if applicable. The 24 hours are not counted toward the maximum allowed transfer credit limit or computed in the cumulative graduate GPA. A copy of the transcript showing the earned degree is required. Degree equivalency from foreign institutions is determined by International Admissions. Advanced standing credit will only be granted for courses completed within five years of admission to the doctoral professional practice program and a grade of B or higher must have been achieved.

Specialist in School Psychology

The Specialist in School Psychology degree is offered in the Department of Psychology in the College of Arts and Sciences. Approved 1991. The Specialist in School Psychology degree requires the completion of a minimum of 60 semester hours of graduate level course work including practicum experiences; a full-time, nine-month internship in a school setting, and completion of a thesis or non-thesis option. The thesis option requires a minimum of 4 semester hours of PSY 499 credit. The non-thesis option requires 4 semester hours of an applied research experience in School Psychology.

Students must maintain a grade point average of at least 3.0 throughout their graduate training. Additionally, no more than 9 semester hours with grades of “C” are permissible.

The student is required to file an approved Proposal for Research with the department at a time and in a manner specified by the department. Institutional policy requires that all research involving human subjects be reviewed and approved by the Institutional Review Board (IRB). Research involving animals must be approved by the Institutional Animal Care and Use Committee (IACUC). Research involving biohazards must be reviewed by the Institutional Biosafety Committee (IBC). A copy of the Thesis Proposal approval form shall be deposited in the Graduate School Office by the early part of the semester or term in which completion of the S.S.P. degree is expected, according to the deadlines published by the Graduate School.

Thesis Acceptance

A complete draft of the thesis must be uploaded to ProQuest before the "Right to Defend" will be issued to the student. For complete details on the completion of the dissertation. Graduate Certificates

Approved 11/29/01; Revised 2018

Graduate-level certificates are graduate courses of study approved by an academic unit designed to provide professional development and career advancement opportunities, to broaden career options, or to enhance an individual's skills or education as part of the process of life-long learning. These certificates are not part of degree programs, although courses completed as part of a certificate curriculum could be used in meeting degree requirements, where appropriate.

A non-degree graduate certificate student is one who has been formally admitted by a department or school to a specific course of study leading to a certificate. There are two types of non-degree graduate certificates.

Post-Baccalaureate Graduate Certificate: Requires a minimum of nine semester hours of graduate courses beyond the baccalaureate degree, but fewer hours than a master's degree.

Post-Master's Graduate Certificate: Requires a minimum of 9 semester hours of graduate courses beyond the master's degree, but fewer hours than a doctoral degree.

Admission

An applicant for a course of study leading to a Graduate or Post-Baccalaureate Certificate must have a bachelor's degree from a four-year college or university that is accredited by the appropriate regional accrediting association, or its equivalent as determined by the Graduate School. For a Post-Master's Certificate, the applicant must have a master's degree from a college or university that is accredited by the appropriate regional accrediting association, or its equivalent as determined by the Graduate School. Applicants must also meet the specific requirements stipulated by the academic unit offering the certificate.

Academic Advisor

A Graduate, Post-Baccalaureate, or Post-Master's certificate course of study shall have a designated coordinator or director assigned by the academic unit chair that is sponsoring the certificate to advise students and confirm completion of the certificate requirements.

For a complete listing of each certificate program's graduate coordinator(s) or director(s) please visit [Grad.IllinoisState.edu/Faculty/Coordinators](https://grad.illinoisstate.edu/Faculty/Coordinators) (<https://grad.illinoisstate.edu/faculty/coordinators/>).

GPA Minimum

In order to be awarded the certificate, a student must have a minimum graduate GPA of 3.0 in the set of courses required for the certificate.

Time Limitations

All requirements for a graduate level certificate must be completed within six calendar years, beginning with the date the student first registers as a graduate level certificate student. This limitation applies to enrollment in all graduate coursework for the certificate including work for which transfer credit is allowed. Refer to the time limitation regulation for master's degrees for additional criteria which would apply.

Transfer of Credit

No more than 40 percent of coursework hours required can be transferred from other accredited institutions to satisfy the certificate requirements.

Additional Requirements and Information

Students must complete the same prerequisites or have the equivalent experiences as graduate degree candidates to enroll in specific courses.

No differentiation in course requirements will exist between graduate certificate courses and graduate degree courses.

Students seeking a graduate level certificate are subject to the academic policies and regulations indicated in this catalog. There will not be university recognition of graduate level certificate completion as part of the degree commencement activities except by agreement of the College whose academic unit sponsors the certificate.

The granting of a graduate level certificate will appear on the University transcript.

Eligibility for Financial Aid, Assistantships, or Fellowships

Certificate students are not eligible for graduate assistantships or fellowships intended for degree-seeking students nor federal financial aid. Graduate tuition waivers are granted at the discretion of the awarding unit.

Use of Courses in Degree Programs

Courses taken as part of a graduate certificate can be counted towards a master's degree following degree grading criteria if the courses are appropriate for the specific degree program and are taken within an approved time frame.

Admission to a Degree Program: Individuals in a graduate-level certificate program who wish to apply to a degree program will go through the usual admissions process for a master's degree, using the usual documentation (transcripts, standardized scores, etc.).

Master of Athletic Training

Degree Offered: M.A.T.

In addition to requirements for the Graduate School, students must meet all academic and clinical education requirements of the Commission on Accreditation of Athletic Training Education (CAATE). The Master of Athletic Training (MAT) degree is a 52 credit hour program and requires both classroom and clinical education.

Admission to the academic program is limited and is based on space availability and the competitiveness of the applicant pool. Specific undergraduate prerequisite coursework is required for admission. For a complete list of prerequisite coursework, please refer to the MAT website.

Once admitted, students must maintain a cumulative grade point average (GPA) of 3.00 on a 4.00 scale throughout the entirety of the program. A student falling below the GPA requirement will be placed on probation for one semester and removed from clinical education. If after one semester the minimum GPA has not been re-established, the student will be dismissed from the program. Students must earn a grade of "C" or better on each clinical site preceptor evaluation. Hours completed while at the site will not be counted toward the required clinical education hours if the student earns a grade below a C. Students must adhere to all student policies in the latest published version of the Athletic Training (AT) Program Handbook. Successful completion of all academic and clinical education requirements will qualify the student to take the Board of Certification (BOC) exam to earn the Certified Athletic Trainer (ATC) credential.

The College offers the core of the General Education program required of all undergraduates, a wide range of academic major and minor programs for meeting baccalaureate degree requirements, master's programs in most disciplines, and doctoral programs in Audiology, Biological Sciences, English Studies, Mathematics Education, and School Psychology. Course offerings span the humanities, social and behavioral sciences, mathematics, and natural sciences.

Chemistry

Programs Offered

Master of Science in Chemistry (M.S.), Master of Science in Chemistry Education (M.S.C.E.), and Master of Chemistry Education (M.C.E.).

All master's degree programs require a minimum of 50 percent of the non-thesis credit hours applied to the degree to be 400-level courses or above.

Master of Science in Chemistry Program

Degree Offered: M.S.

The program is broad-based, and allows students to specialize in any of the sub-disciplines (physical, organic, inorganic, analytical, biochemistry, or chemical education), although coursework is required in at least four sub-disciplines. The Master of Science in Chemistry (M.S.) is a thesis-based M.S. degree requiring 31 credit hours including: Four hours each in CHE 490 (<https://coursefinder.illinoisstate.edu/CHE/490/>) (Research) and CHE 499 (<https://coursefinder.illinoisstate.edu/CHE/499/>) (Master's Thesis) are required as part of the 31-hour program, although most students will register for more than the total of eight required hours while pursuing the degree. Students select a research advisor and work closely with that faculty member to complete a thesis based upon original research. Upon completion of a written thesis, a final oral examination/thesis defense is required.

In general, students admitted to the Master of Science in Chemistry program should have completed coursework in science and math equivalent to that required for a B.S. degree in Chemistry at Illinois State University or have received an American Chemical Society-certified B.S. degree from another school. If a student will be admitted to the Master's degree program with deficiencies (though no student will be admitted with 12 or more credit hours of deficiencies in Chemistry coursework), the deficiencies will be identified as specific courses and students will have to complete those courses as early as possible in order to bring their background coursework to the required level. All deficiencies should be completed by the end of the third semester in the program. In general, credit earned for completion of deficiencies does not apply toward M.S. degree requirements unless the student petitions the Department and receives approval to count specific courses (up to a maximum of six credit hours) for graduate credit in the student's plan of study, and only courses listed as approved for graduate credit on Course Finder may be counted.

This 31-hour degree requires:

- 21 hours of 400 and/or CHE 300-level courses including a minimum of 12 credit hours of courses at the 400 level in 3 sub-disciplines (analytical, inorganic, organic, physical, biochemistry, and chemical education)
- 2 hours: 1 hour each CHE 492 (<https://coursefinder.illinoisstate.edu/CHE/492/>) and CHE 494 (<https://coursefinder.illinoisstate.edu/CHE/494/>).

- 8 hours: 4 hours each in [CHE 490](https://coursefinder.illinoisstate.edu/CHE/490/) (<https://coursefinder.illinoisstate.edu/CHE/490/>) and [CHE 499](https://coursefinder.illinoisstate.edu/CHE/499/) (<https://coursefinder.illinoisstate.edu/CHE/499/>).
- Successful completion of a thesis based upon original research and oral examination/thesis defense
Graduate coursework in related disciplines may be substituted with consent of the Chemistry Department.

Communication Sciences and Disorders

Programs Offered

M.A./M.S. in speech language pathology, Au.D. in Audiology, and a Graduate Certificate in Social Aspects of Aging.

Admissions Information

In addition to the requirements of the Graduate School, the degree students must meet all the academic requirements and clinical practicum requirements for the Certificate of Clinical Competence of the American Speech-LanguageHearing Association. Copies of requirements for both Illinois and national certification are available in the departmental office. The graduate programs are accredited by the Council on Academic Accreditation.

Students must maintain a cumulative grade point average of 3.00 in major courses and overall to retain their degree status and to be eligible for department clinicals. Enrollment by graduate students in the department's clinicals requires degree status. In all instances, permission of the Clinic Director is needed for practicum enrollment, and enrollments may be restricted. External graduate clinicals may require special coursework and will require a student to provide transportation to external settings arranged by the department.

A candidate for the master's degree must spend at least one full term in residence in order to qualify for the degree. A full term is interpreted as one semester with a class load of eight or more hours, or a summer session with a class load of six or more hours. A degree student in the Doctor of Audiology program must spend one year in residency in order to qualify for the degree. A year in residence is interpreted as three consecutive semesters with a class load of six or more hours for each semester.

Three program options are available for the master's degree in speech pathology. Regardless of the option selected, the student must meet the academic and clinical practicum requirements for the Certificate of Clinical Competence (CCC) of the American SpeechLanguage-Hearing Association (ASHA). In order to meet the clinical practicum requirements for the CCC, the student must be prepared to accept responsibility for completing all the clinical assignments. The specific requirements for the master's degree in Speech-Language Pathology follow.

Speech-Language Pathology Program

Degree Offered: M.A., M.S.

Students must meet all the academic and clinical practicum requirements for the Certificate of Clinical Competence (CCC) in Speech Language Pathology from the American Speech Language Hearing Association (ASHA).

Students will select one of three options at the end of the spring semester (third term on campus).

Students may take graduate courses in other related disciplines such as art history and visual culture; English; Languages, Literatures, and Cultures; Philosophy; Politics and Government; and Sociology/Anthropology. Up to six hours of credit from classes in other departments may be used in history master's degree programs provided written permission is received from the history graduate director prior to enrollment and the courses are included on the approved degree audit.

Languages, Literatures, and Cultures

Programs Offered

MA Languages, Literatures, and Cultures and Graduate Certificate in Instructional Technology in World Languages.

The Department of Languages, Literatures, and Cultures offers a flexible program leading to the Master of Arts in Languages, Literatures, and Cultures with a focus in either teaching or non-teaching areas. Students may concentrate on either French or Spanish.

Additional Information

Subject to departmental approval, it is also possible to take up to three graduate courses in other departments or through study abroad. Within the particular language concentration students must choose one of two areas of emphasis: (1) Literary and Cultural Studies, or (2) Theoretical and Applied Linguistics. Instruction in courses is generally carried out in the language of concentration, with the exception of the core courses.

Study Abroad

Students may count up to nine hours of approved courses from outside the department, including study abroad, toward degree requirements. Financial assistance for the semester abroad is usually available on a competitive basis, subject to availability of funds. The study-abroad opportunity should be discussed with the Graduate Advisor during the student's first semester in the program.

Language of Instruction in Courses in the Department of Languages, Literatures, and Cultures

Because the Department of Languages, Literatures, and Cultures promotes the acquisition of world languages, the official language of instruction and class discussion will be the language of study in the majority of cases. Courses with the LAN prefix are taught in English.

The language of instruction is designated on the registration system by subject abbreviation and course title. LAN is for English; FRE is for French; GER is for German; and SPA is for Spanish.

Doctor of Philosophy in Mathematics Education Program

Degree Offered: Ph.D.

The typical program is approximately 90 hours. A full-time student should expect to complete the required coursework for the program in 3 to 4 years past the bachelor's degree.

Two options are available K-9 or K-12.

Program requirements include:

- 6 hours of graduate mathematics content courses
- 30 hours in mathematics education
- 3 hours for a professional project
- 12 hours in research methods
- 6 hours of electives in areas such as mathematics, technology, curriculum, educational psychology, evaluation, supervision, human development, learning theory or measurement
- a minimum of 15 hours of dissertation credit

Students in the program must demonstrate competence in teaching prospective or practicing mathematics teachers. Some of these requirements may be satisfied by work completed prior to acceptance into the program. The student must also meet the other university requirements for Ph.D. programs listed elsewhere in this catalog. Students must meet the Graduate School's residency requirement for a Doctor of Philosophy degree.

Residency Requirement

Approved 4/23/92; updated 9/19/02

Full-time residency consists of at least two terms. A term is one semester or a summer session of at least eight weeks.

Full time residency is at least nine semester hours of coursework during a semester or six semester hours during a summer session.

Each student will file a Declaration of Residency for approval of the department prior to entering into residency. The department will verify the completion of residency and file the declaration with the Registrar's Office. Any exceptions to the above requirements must have the approval of the department.

Purposes of a Doctoral Residency

To orient and prepare graduate students to meet academic expectations and engage in activities that are associated with involvement in a scholarly environment within a community of scholars as they pursue their doctoral degree.

To engage and stimulate the intellectual, personal, and social development of graduate students in the process of inquiry.

Admissions Information

Illinois State University School of Social Work completes criminal background checks for all BSW and MSW candidates and reserves the right to deny admission based on application materials, previous academic record and records of past conduct, including but not limited to the results of a criminal background check or registration of a sex offense.

Any offers of admission are contingent upon successfully completing and passing a national background check. The school may refuse or revoke admission for the following: misrepresentation of self, criminal behavior, results of the national background check, and/or behavior that interferes with performing professional duties.

If admitted to the MSW/BSW program, any applicant or student with a criminal background may not be eligible for some field instruction placements. In addition, the applicant or student may not be eligible for licensure after completing the requirements for the MSW/BSW degree. Many agencies require criminal background checks as a condition for accepting a placement in their program. It is the student's responsibility to inquire with the Illinois Department of Financial and Professional Regulation or other professional licensure boards to determine their licensure eligibility.

Once admitted to the MSW/BSW program, students must report any new information or criminal convictions and adhere to the Professional Standards of the University and the School of Social Work. Students must meet the criteria for professional and ethical behavior as set forth by the School of Social Work.

A 60-hour, two-year program for fulltime students, students may also choose part-time programs and should consult with the advisor. New students who have undergraduate degrees in fields other than social work or from non-accredited schools of social work complete the full program. Students with undergraduate social work degrees from programs accredited by the Council on Social Work Education may be given advanced standing and complete the 30-hour advanced curriculum.

NOTE: Academic credit for life experience and/or previous work experience is not given, in whole or in part, in lieu of any social work course.

Post-MSW Professional Educator License Graduate Certificate

Interested students who have previously completed a master's in social work degree but wish to obtain a professional educator license with a "school social worker endorsement" from the Illinois State Board of Education (ISBE) may complete the required coursework and a school social work practicum placement. The program is offered part-time over 2 years; the first year consisting solely of coursework and the second year consisting of a 700 hour practicum placement in a school setting with a school social worker and a concurrent seminar course. During the program, students also complete the required social work "content exam" and reading modules, which allows them to be eligible to apply for and obtain licensure from ISBE upon completion of the certificate program. Thus, when all course and field practicum requirements are met, students submit their application to ISBE to receive their "professional educator license (PEL) with a school social work endorsement".

No transfer credit will be counted toward completion of the certificate. Students must petition for certificate eligibility.

Marketing

Programs Offered

Description and requirements for the Master of Business Administration degree are listed under that section. The Department of Marketing offers a Business Analytics Graduate Certificate and also staffs and offers graduate courses in Marketing and in Business Education.

Business Analytics Graduate Certificate

The ISU Graduate Business Analytics Certificate Program is designed for students who (1) have completed an undergraduate degree program, and (2) have had undergraduate training in business and/or have been employed at least one year in a business enterprise. The certificate program consists of four courses (3 credit hours each) which can be completed in an academic year. The 12 credit hours of the Business Analytics certificate would count toward an MBA degree from ISU if the student later enrolled in the MBA program.

12 total hours are required to complete this graduate certificate.

The required courses must be completed with grades not lower than a “C” while maintaining a cumulative GPA of at least a 3.00.

Required courses (12 hours): MBA 416 (<https://coursefinder.illinoisstate.edu/MBA/416/>), BIS 471 (<https://coursefinder.illinoisstate.edu/BIS/471/>), MKT 440 (<https://coursefinder.illinoisstate.edu/MKT/440/>), MKT 445 (<https://coursefinder.illinoisstate.edu/MKT/445/>).

Master of Business Administration

Programs Offered

The Master of Business Administration (M.B.A.).

Master of Business Administration Program

Degree Offered: M.B.A.

The M.B.A. degree assumes an undergraduate knowledge base in business and economics which students with undergraduate degrees in business will normally have acquired.

Students admitted with nonbusiness undergraduate degrees may have to complete Pre-MBA Program courses before enrolling in the M.B.A. core courses. Specific requirements will be determined by the Associate Dean for Academic Programs and Curriculum (hereafter referred to as "Associate Dean"). The responsibility for demonstrating prior academic coverage of the material at the appropriate level rests with the student, and should be completed at least one month prior to the beginning of the first semester of course work. Students who have not taken college algebra, economics, accounting, finance, and/or statistics within the past five years are strongly encouraged to take the Pre-MBA Program courses as a refresher prior to their first core course.

Students with a non-business undergraduate degree should expect to complete some or all of the following Pre-MBA Program courses online.

- Fundamentals of Economics
- Financial Accounting
- Managerial Accounting
- Principles of Management
- Principles of Marketing
- Business Math and Statistics
- Understanding Corporate Finance
- Business Law Essentials

In addition to any Pre-MBA Program courses required, some or all of which may be waived based on an individual's previous academic work, all M.B.A. candidates must complete 36 semester hours including:

- 9 hour beginning skill core courses: [MBA 411](https://coursefinder.illinoisstate.edu/MBA/411/) (<https://coursefinder.illinoisstate.edu/MBA/411/>), [MBA 412](https://coursefinder.illinoisstate.edu/MBA/412/) (<https://coursefinder.illinoisstate.edu/MBA/412/>), [MBA 416](https://coursefinder.illinoisstate.edu/MBA/416/) (<https://coursefinder.illinoisstate.edu/MBA/416/>).
- 15 hour central core courses: [MBA 421](https://coursefinder.illinoisstate.edu/MBA/421/) (<https://coursefinder.illinoisstate.edu/MBA/421/>), [MBA 427](https://coursefinder.illinoisstate.edu/MBA/427/) (<https://coursefinder.illinoisstate.edu/MBA/427/>), [MBA 430](https://coursefinder.illinoisstate.edu/MBA/430/) (<https://coursefinder.illinoisstate.edu/MBA/430/>), [MBA 440](https://coursefinder.illinoisstate.edu/MBA/440/) (<https://coursefinder.illinoisstate.edu/MBA/440/>), [MBA 450](https://coursefinder.illinoisstate.edu/MBA/450/) (<https://coursefinder.illinoisstate.edu/MBA/450/>); Students who have successfully completed 12 or more undergraduate semester hours in a required core area may be eligible to substitute a 400-level elective in that area for the required core course.
- 3 hour capstone course: [MBA 485](https://coursefinder.illinoisstate.edu/MBA/485/) (<https://coursefinder.illinoisstate.edu/MBA/485/>).
- 9 hours of 400-level graduate business or other pre-approved elective courses. (Graduate courses at the 300-level may not be taken to fulfill the M.B.A. elective requirements). In consultation with a Master of Business Administration advisor, students are able to choose from among a wide offering of elective courses to design a Plan of Study. The choice should be congruent with each student's goals. Elective concentrations are offered based on student demand, including Business Analytics, Financial Management; Human Resource Management; Risk Management, Marketing Management; Organizational Leadership, Project Management; Elective courses taken outside the College of Business require prior approval by the Associate Dean and often involve additional course work to fulfill prerequisites.

Students without relevant full-time work experience are encouraged to consider a professional practice internship as an elective choice; up to three (3) hours of professional practice credit (498 in the ACC, FIL, MKT, and MQM departments) may be used in the Plan of Study toward the degree. A thesis may be substituted for up to six hours of elective course work. Please refer to the thesis section elsewhere in this catalog for Graduate School policies on thesis work.

Course Limitations

No more than a total of three (3) credits can be counted from any 400 (Independent Study) and MBA 498 (Internship) courses. Exceptions must be approved by the Associate Dean. Credit will not be given for course numbers below 400 (no 300-level graduate course will be counted in an M.B.A. Plan of Study). All core and elective courses must be completed within six years from the time of taking the first core course.

Credit-Hour Limitations for Non-Business Graduate Students

While other graduate programs on campus may require and/or give elective credit for selected MBA courses, non-MBA graduate students will not be permitted to exceed 12 credit hours of MBA course work. Non-business students seeking to enroll in MBA courses will first need to obtain their major advisor's permission to register for classes and then must submit to the MBA Office (201 State Farm Hall of Business) a completed "Non-Major Enrollment Request" form. Permission to enroll is dependent upon space availability in the requested course(s) and prior completion of prerequisites. MBA students will have priority in registration.

Courses

Descriptions of courses leading to the M.B.A. degree are found under the Departments of Finance, Insurance and Law; Management and Quantitative Methods; Marketing; Accounting; and Master of Business Administration.

Repetition of Courses in the M.B.A. Program

A student may register officially for an MBA course (core or elective) only twice. A student who completes a course or drops a course after census day (the tenth day of the semester) may officially enroll in the same course only one additional time.

College of Education Programs

The College of Education includes the Departments of Special Education and Educational Administration and Foundations, the School of Teaching and Learning, the Office of Clinical Experiences and Licensure Processes (CELP) in the Cecilia J. Lauby Teacher Education Center, and the University Laboratory Schools.

The mission of the College of Education is to provide state and national leadership in teacher and administrator education, educational research, and educational policy.

The preparation and continuing professional development of educators is the core of this mission. The guiding framework for teacher education at Illinois State University, "Realizing the Democratic Ideal," captures the values of all education programs. A comprehensive offering of degree, certification, and outreach programs operated year round at both undergraduate and graduate levels constitutes the primary mechanism through which the mission is fulfilled.

The College also fulfills its strategic mission of influencing education by providing support systems for faculty engaged in research, evaluation, product development, and other creative activities. The research agenda of the College is focused on production, synthesis, and application of knowledge that contributes to solutions of contemporary education problems and issues.

The third way the College meets its responsibility to influence education is to interact directly with practitioners in the field in a variety of school, agency, and association partnerships. In addition, the College is an active participant in discussions related to educational policy development within national, state, and local arenas.

The Illinois Board of Higher Education has approved Illinois State University to offer full masters and doctoral programs off-campus. For further information contact the department chairs of Educational Administration and Foundations and Special Education or the director of the School of Teaching and Learning.

Academic Advisors

Transfer Credit

A student who does not have an earned master's degree usually may present no more than six semester hours of credit from another college or university for use in meeting the requirements of the M.F.A. degree. However, a student may present all earned hours from an M.A./M.S. program in Theatre Studies at Illinois State University for use in meeting these requirements.

The total hours required for a student with an earned master's degree will be based on an evaluation of the student's portfolio and academic record. However, the final determination will not be made until the student has completed a minimum of six semester hours in his/her major area of emphasis. The student's M.F.A. committee will supervise all evaluations. Refer to M.F.A. Transfer Credit in the Fields of Study and Degrees Granted section.

A minimum of 32 hours must be taken at Illinois State University

Residency Requirement

A student without an earned master's degree must complete a residency requirement of at least four semesters with at least two of them being full-time, consecutive semesters. A student with an earned master's degree must complete a residency requirement of at least two full-time, consecutive semesters. Summer session may be counted toward the two consecutive semester requirement.

The M.F.A. Portfolio

Each semester of enrollment the M.F.A. candidate will enroll in THE 501 (<https://coursefinder.illinoisstate.edu/THE/501/>), M.F.A. Portfolio, for one hour credit. The portfolio is the backbone of the Master of Fine Arts program. It is designed to ensure the regular and systematic evaluation of the student's progress. The portfolio is a collection of materials, including examples of the student's work where appropriate, reviews, evaluations and other artifacts, which may record or characterize the student's experience in the program. The portfolio also contains the student's responses to evaluations as well as statements from the Portfolio Committee which provide direction for the student's future work in the program.

The student must have a portfolio evaluation for each full semester he or she is in the program. The written results of that evaluation are included in the portfolio. The portfolio provides a cumulative record of the student's progress which is carried over from semester to semester.

Finally, the portfolio, with its record of the student's activities in the program, provides the major objective basis for awarding the degree. Although the student may engage in major creative projects during his or her program, the portfolio stands in lieu of the traditional thesis or creative thesis project which is the culminating experience in many programs.

Qualifying/Comprehensive Examination

A qualifying examination is required prior to the exit portfolio presentation. It may be comprehensive to the extent that it examines the candidate's knowledge of the discipline of theatre; it may include graduate work the student is presenting for the degree; and it may include demonstration of proficiency. The examination will be

conducted by the student's M.F.A. Portfolio Committee. The student may request that other faculty members with whom he/she has taken course work participate in the qualifying examination.

Final Portfolio Review and Exit Interview

To be eligible for the exit portfolio presentation, the student must (1) present a grade average of B or better with not more than six (6) hours of a grade of C; (2) have completed (or will complete in the current semester) two semesters of full-time resident study; (3) have a degree audit on file with the Graduate School; (4) have passed a qualifying examination; and (5) pass a final portfolio review and exit to be conducted by his/her M.F.A. Committee. The format of this review and exit will be determined by the M.F.A. Committee, who will, when the work is deemed satisfactory, recommend the student to the appropriate studio area for graduation. At least one week before the Graduate School graduation notification deadline, the School Graduate Faculty will meet to hear the studio area's recommendations. Once the Graduate Faculty has approved the student's graduation, the student will be recommended to the Graduate School for the granting of the degree.

Students should consult with their M.F.A. Portfolio Committees and the School Graduate Advisor for details and the calendar of the final portfolio review and exit. While no student is guaranteed graduation, those whose work is deemed unsatisfactory may be presented opportunities for remediation by their Portfolio Committees.
